Tidel Announces Sentinel Bulk Coin Dispenser with Coin Recycler

Carrollton, Texas – January 9, 2010 - Tidel Engineering, L.P., the world leader in Cash Management Systems and Robbery prevention products is introducing its newest Sentinel Cash Management system, the Tidel Sentinel Bulk Coin Dispenser with Coin Recycler (BCD-R).

“The BCD-R is the **only** solution available today that automates the cash room for retailers’ cash handling and reconciliation processes. All cash processing is automated and simplified. Cashiers can begin and end their shifts without interacting with anybody else but the BCD-R. In addition, individual shift and end-of-day balancing is totally automatic”, said Ed Grondahl, EVP Global Sales of Tidel.

The BCD-R is made up of 3 segments:

1. A Coin Recycler that accepts, validates, counts, sorts and dispenses coins.
2. A Note Dispenser that dispenses flat notes (versus rolled).
3. A Bulk Note Acceptor that accepts, validates and counts notes.

The Tidel Sentinel BCD-R provides full cash automation and cash reconciliation and will let you create the “unattended cash room” by eliminating manual cash counting. This results in improved productivity and the elimination of cash shrinkage.

ABOUT TIDEL

Tidel, a wholly owned subsidiary of Sentinel Technologies, Inc. (a private holding company), has been a manufacturer of cash security equipment designed for specialty retail marketers since 1978. Tidel designs and manufactures products for cash security and robbery prevention, as well as retail cash management. To date, Tidel has sold more than 250,000 systems in the U.S. and over 50 other countries. Tidel provides a 24-hour, seven-day customer service center and offers customer service and support in over 120 countries worldwide. Information about the company and its products may be found on the company’s website at www.tidel.com or email sales@tidel.com.
