Tidel Releases Sentinel SCD-XL – Offers 2,250 USA notes per cassette; 4,500 per cabinet

Carrollton, Texas – August 20, 2010 — Tidel Engineering, L.P. announces the availability of the newest Sentinel Cash Management module, the Tidel Sentinel SCD-XL (Sentinel Control Device – extra long cassette). The Sentinel SCD-XL stores approximately 4,500 USA notes within a two cassette cabinet, thus doubling the note capacity that has been available in the industry for many years. The SCD-XL offers single note feeders or bulk note feeders to meet customers' individual requirements.

“Our customers asked us to increase validated note capacity and we responded with the addition of the SCD Sidecar. Now with the new SCD-XL, we can double capacity in a single cabinet, which is only 14 inches wide. The SCD-XL will add 100% additional capacity for a very small incremental cost”, said Ed Grondahl, EVP Global Sales at Tidel.

The SCD-XL validates notes and stores them in cassettes within the safe cabinet until they are removed and taken to the bank. The new Sentinel SCD-XL module adds even more combinations of intelligent safes for our customers. Today, Tidel provides our customers more than 100 configurations of cash management equipment.

ABOUT TIDEL

Tidel, a wholly owned subsidiary of Sentinel Technologies, Inc. (a private holding company), has been a manufacturer of cash security equipment designed for specialty retail marketers since 1978. Tidel designs and manufactures products for cash security and robbery prevention, as well as retail cash management.
