Tidel Releases Sentinel Side Vault – Offers storage for pre-counted till drawers

Carrollton, Texas - Tidel Engineering, L.P. announces the availability of the newest Sentinel Cash Management module, the Tidel Sentinel Side Vault.

The primary new features of the Sentinel Side Vault are:

- Storage space to store pre-counted till drawers
- Additional side storage vault for securing change funds
- At 15" W x 30.75" H x 19" D, the Side Vault has capacity for up to 10 till drawers
- Open Door Alarm – Alarm sounds if a door is left open longer than a preset time
- Open Door Alarm Reset – Alarm can be reset for a second cycle
- Includes 3 adjustable shelves

"Our customers have asked us for an additional storage vault to secure the store manager's pre-counted till drawers and to help eliminate the need for a second safe in the manager's office" said Ed Grondahl, EVP Global Sales at Tidel.

"Working from an open/unlocked safe is a major concern in all retail establishments. The open door alarms assist management efforts to stop this dangerous practice", Ed continued.

Tidel also offers another version of the 3-door safe, the Sentinel SCD-3, which has a side vault that is 9" wide. The Sentinel Side Vault is generally used by retailers who would like to secure several pre-counted till drawers, bags of start-of-shift till change, or the entire change fund. In addition, the storage vaults are used to secure lottery tickets and other high value inventory.

ABOUT TIDEL

Tidel, a wholly owned subsidiary of Sentinel Technologies, Inc. (a private holding company), has been a manufacturer of cash security equipment designed for specialty retail marketers since 1978. Tidel designs and manufactures products for cash security and robbery prevention, as well as retail cash management. To date, Tidel has sold more than 300,000 systems in the U.S. and over 50 other countries. Tidel provides a 24-hour, seven-day customer service center and offers customer service and support in over 120 countries worldwide. Information about the company and its products may be found on the company's website at www.tidel.com or email sales@tidel.com.
