

SENTINEL LCND

The Sentinel™ LCND (Low Capacity Note Dispenser) adds another flat note dispenser to the modular Tidel Sentinel product line. Sentinel has been designed to further reduce the risk of internal theft, streamline in-store management time, and create greater efficiencies in store operations, thereby improving overall customer service. Note validating software can easily be updated across the network so that no trips to the store are required when new currency is released by local governments.

For more than a quarter century, Tidel has been the recognized leader in the manufacture of retail cash security systems. With over 300,000 systems shipped, major retailers throughout the world have turned to Tidel to provide solutions to their cash handling needs.

The Sentinel family of Cash Management Systems is designed with flexibility and efficiency in mind. The Sentinel can operate either on a stand alone basis or installed as a node on your existing network, and its Windows based software provides secure, 2-way communication between the Sentinel and POS or Sentinel and Corporate Offices. The networked Sentinel system allows users to view and download transactional data or reports, download software enhancements and transfer status indicators or data logs. Tidel's software also provides the unique ability to electronically "command and control" the operation of the Sentinel through the POS terminal, providing full accountability and effectively closing the cash management loop.

SPECIFICATIONS:

Weight:	250 lbs. (113 kg) LCND only 540 lbs. (245 kg) with Dual Note Validators
Height:	30.75" (781 mm)
Width:	11" (280 mm) LCND only 22.25" (565 mm) with Single SCD 25.5" (648 mm) with Dual SCD
Depth:	20" (508 mm) vault only 25" (635 mm) overall

Power Requirements:
120 VAC 60Hz or 220 VAC 50Hz

HARDWARE FEATURES:

- LCND Supports 4 Denominations/Cassettes
- LCND Fits Under the Counter at 30.75"
- Dispenses 1 Note per Second
- Includes an Independent Note Reject Tray
- Connects to Single or Dual SCD Note Validator Modules
