

SENTINEL SIDE VAULT

The Sentinel™ SCD with Side Vault was designed for the customer who requires note validators to store, total and validate notes from the day's sales, but also requires a large vault for additional storage. The side vault storage is generally used for the store's change fund or up to 10 pre-counted till drawers (2.5" each) or other items such as lottery tickets. The two note validators are controlled through a PIN based touchscreen interface that accounts for every cash deposit made. Reports provide a comprehensive summary of system activity, making it easier for clerks to close out their shift, managers to run end-of-day reports and couriers to get in and out of the location quickly.

The photo shows a 3-door Sentinel solution with a standard SCD and a side vault which provides two separate vaults for managing the store's change fund. An audible alarm sounds if a door is left open longer than a programmable time period. The alarm can be reset for another time period when the manager enters their PIN number. This eliminates the temptation of running the store with an open vault door.

The Sentinel family of Cash Management Systems is designed with flexibility and efficiency in mind. The Sentinel installs as a node on your existing network and its proprietary Windows based software provides secure, 2-way communications between the Sentinel, POS and back office reporting systems. The networked Sentinel system allows users to download transactional data or reports, remotely install new currency updates, download software enhancements and transfer status indicators or data logs. Tidel's software also provides the unique ability to electronically "command and control" the operation of the Sentinel through the POS terminal, providing full accountability and effectively closing the cash management loop.

SPECIFICATIONS:

Weight:	225 lbs. (102 kg) Vault Only
Height:	30.75" (781 mm)
Width:	15" (381 mm) Side Vault Only 26.25" (667 mm) with Single SCD 29.5" (749 mm) with Dual SCD
Depth:	20" (508 mm) vault only 25" (635 mm) overall

Power Requirements:
120 VAC 60Hz or 220 VAC 50Hz

HARDWARE FEATURES:

- 3 Separate Time-Delayed Vaults for Note Validator Cassette and Auxiliary Storage Security
- Alarm can be Reset for Another Time Period by Manager
- The Side Vault has Space for up to (10) 2.5" High Till Drawers
- 1 or 2 Note Validators with Standard or XL Cassettes
- Note Validators are Single Note Feed or Bulk Note Feed
- Personal Identification Number (PIN) and Data Key System Allows Managed Access to Functions and Reports
- Optional Courier Data Key that Allows Instant Access to the Validator Vault
- Anti-Fish Drop Chute Drop into the Lower Storage Vault
- Integrated Thermal Printer
- 3 Adjustable Shelves Included
- Audible Alarm Sounds if Doors are Left Open Longer than a Programmable Time Period

SOFTWARE FEATURES:

- All Transactions, Deposits, Drops and Vault Access can be Tracked Back to an Individual User Through the Use of PINs
- Advanced Accounting Features That Allow for a Variety of Reports Including Note Insertions, Courier Pickups, Transactions, Shift Reports and Daily Summaries
- Storage for up to 48,000 Financial and Security-Related Transactions to Better Facilitate Auditing
- Easily Upgraded Via a Network Download to Facilitate a Global Software Upgrade for the Application or for Reading New Currency When Released by Local Governments
- Report Information can be Downloaded to a Remote Server
- Sentinel Can be Connected to Ethernet Network for Interface to POS, Back Office PC or Remote Locations

WARRANTY:

- 1 Year Parts and 90 Days Labor (Inside the US)
- 1 Year Parts Only (Outside the US)
