

SENTINEL SCD - 3

The Sentinel™ SCD-3 (Sentinel Control Device) was designed for the customer who deals in high volume cash and puts a premium on the security of their notes. The two note validators are controlled through a PIN based touchscreen interface that accounts for every cash deposit made. Reports provide a comprehensive summary of system activity, making it easier for clerks to close out their shift, managers to run end-of-day reports and couriers to get in and out of the location quickly.

The 3-door SCD provides two separate vaults for managing the store change fund. An audible alarm sounds if a door is left open longer than a programmable time period.

The Sentinel family of Cash Management Systems is designed with flexibility and efficiency in mind. The Sentinel installs as a node on your existing network, and its proprietary Windows based software provides secure, 2-way communication between the Sentinel, POS and back office reporting system. The networked Sentinel system allows users to download transactional data or reports, remotely install currency updates, download software enhancements and transfer status indicators or data logs. Tidel's software also provides the unique ability to electronically "command and control" the operation of the Sentinel through the POS terminal, providing full accountability and effectively closing the cash management loop.

SPECIFICATIONS:

SCD Dual Note Validator:

- Weight: 450 lbs. (204 kg)
- Height: 30.75" (781 mm)
- Width: 24" (610 mm)
- Depth: 19" (483 mm) vault only
24" (610 mm) overall

Power Requirements:

- 120 VAC 60Hz or 220 VAC 50Hz

HARDWARE FEATURES:

- 3 Separate Time-Delayed Vaults for Note Validator Cassette and Auxiliary Storage Security
- 2 Note Validators with Standard Cassettes
- Note Validators are Single Note Feed
- Personal Identification Number (PIN) and Data Key System Allows Managed Access to Functions and Reports
- Optional Courier Data Key that Allows Instant Access to the Validator Vault
- 2 Anti-Fish Drop Chutes Drop into the Acceptor and Lower Storage Vault
- Side and Lower Vault have Auto Locking Doors
- Integrated Thermal Printer
- Audible Alarm Sounds if Doors are Left Open Longer than a Programmable Time Period
