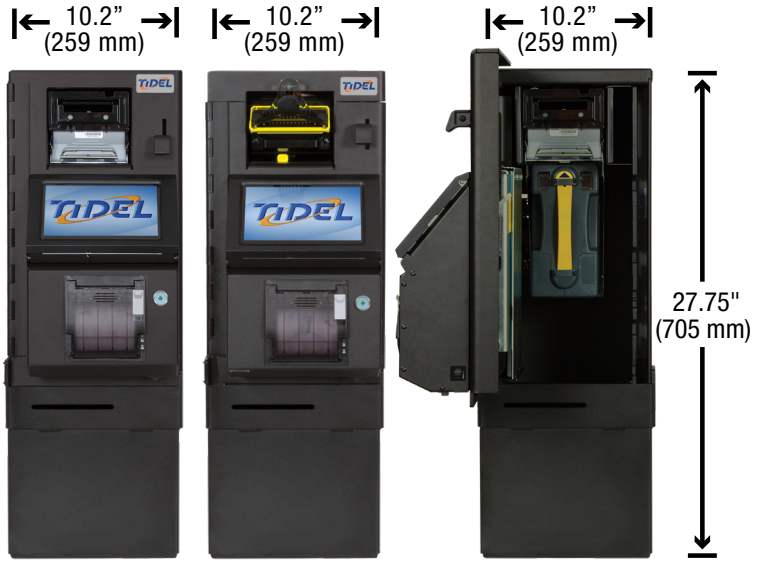
Tidel Series 3 Cash Management System

The Tidel Series 3 is ideally suited for low to moderate cash volume organizations that require a secure and auditable system to deposit their cash throughout their business day. The Series 3 provides increased security, greater accountability, and reduced risk for a store's cash environment. The Series 3 removes the manual burden of recording and reconciling cash deposits, allowing store personnel to focus on more productive tasks.

The Tidel Series 3 offers an expansive software suite that provides a complete cash management application with full accountability and auditability of all system activity. The Series 3 can easily connect to a store's network - via Ethernet or wireless – enabling full visibility to all system transactions from a remote location. The integrated console, supported by a 7-inch color screen, is the focal point for all system transactions, all of which are completely auditable and traceable via individual user PIN.

The integrated printer can be set up to print reports after every transaction and can also print customized reports on demand. The Series 3 is equipped with one single or bulk note validator, supports one standard (1,200 note) or XL (2,250 note) cassette, and offers a manual storage vault for non-cash items such as checks.

Series 3 serviceability is extremely efficient and cost-effective. The main CPU board and power supply are easily accessible via the system console, making service calls faster, more secure, and less expensive. The Series 3 note validator can be easily removed to clear a note jam, without the need for an expensive service call.



SPECIFICATIONS:

Single Note Validator:
Weight: 88 lbs. (40 kg)
Height: 27.75" (705 mm)
Width: 10.2" (259 mm)
Depth: 15.25" (387 mm) vault only
Depth: 19" (482 mm) overall
