

## **Tidel Announces New Coin Dispensing Systems**

October 18, 2016 - Carrollton, Texas – Tidel, a world leader in Cash Management Systems and Robbery Deterrent products, announces two new additions to its product family – the Rolled Coin Dispenser and High Capacity Bulk Coin Dispenser. Both systems will be on display at the 2016 NACS show in Atlanta, in booth # 3661.

The High Capacity Bulk Coin Dispenser is an ideal solution for high volume cash environments, such as grocery stores, transportation companies, big box retail, or hospitality organizations that require a secure and dependable solution to manage the disbursement of loose coin, as part of their day to day cash operations.

The Rolled Coin Dispenser enables retailers to securely store and dispense rolled coin on demand, offering a convenient and complementary solution to the store's overall cash environment. Dispensing rolled coin on the store's premises also minimizes the frequency and expense of third party deliveries of rolled coin. With its innovative design, the Tidel Rolled Coin Dispenser represents the smallest footprint and highest capacity system in the industry.

Both the High Capacity Bulk Coin Dispenser and Rolled Coin Dispenser can be controlled by two Tidel systems – the Tidel S5 note recycler, or the Tidel Series 4e smart safe, providing retail organizations unmatched flexibility and convenience in deploying either solution.

“Our new coin dispensing solutions are logical additions to our industry-leading portfolio of cash management systems,” said Darren Taylor, Executive Vice President of Global Business Development at Tidel. “The High Capacity Bulk Coin Dispenser provides our higher cash volume customers additional capacity they may require to dispense loose coin through their business day. Our Rolled Coin Dispenser enables our customers to securely store and dispense rolled coin whenever they need it to support their daily cash operations. Both coin dispensers are also the first solutions we have developed that can be controlled by two Tidel systems – The Tidel S5 note recycler, or the Tidel Series 4e smart safe, which gives our customers unparalleled capability and flexibility in operating turnkey coin dispensing solutions.”
