

# TUBE VENDOR

# TUBE VEND

The Tidel Tube Vend, when deployed with the Series 4, is a proven cash management system that helps retail organizations reduce the risk of internal theft, streamline in-store management time, and create greater efficiencies in store operations.

Ideally suited for the convenience store industry, the Tube Vend is an effective solution to help a retail organization manage its in-store change fund. The Tube Vend offers 8 columns that can fit up to 11 tubes per column, and each tube can be fitted with either notes or coins. Once the tubes are loaded and recorded using the Series 4 console, the inventory is then automatically tracked and recorded as it is removed by authorized store personnel. The Series 4 end-of-day report will display the amount of cash removed by each employee, by user PIN, along with the amount of cash deposited into the Series 4 note validators or into the manual drop slot. The sum of all transactions, by PIN, will assist the manager in balancing each cashier against their cash sales recorded by the point of sale system. Tube inventory reports will inform the manager how much change is required to load the Tube Vend, which is typically a once per day function.

Each tube vending occurrence is enabled after an automatic time delay sequence is completed. This time delay serves as an effective deterrent to armed robbery. An optional "Buy Change" function allows a cashier to purchase their tubes of change by depositing the same amount of currency through the note validators, thus limiting the loan amounts to each cashier.

## HARDWARE FEATURES

- 7" Color console screen
- Note validator maintenance door – enables validator heads to be removed in the event of a note jam
- Two bottom vault options – storage vault (includes drop slot), or mailbox drop vault
- Support for single or bulk note validators
- Support for standard (1,200 notes) or XL (2,250 notes) Cassettes
- Integrated thermal printer with receipt cutter
- Integrated tube loading gate that prevents unauthorized loading of tubes
- Stores 11 tubes of 8 denominations for a total of 88 tubes
- Each tube can hold up to 30 notes or a roll of coins

## POWER REQUIREMENTS

120 VAC 60Hz or 220 VAC 50Hz

## SPECIFICATIONS:

### Standard Cassette (1,200 note) version

- Weight:** 316 lbs. (143 kg)
- Height:** 30.75" (781 mm)
- Width:** 22" (559 mm)
- Depth:** 19" (483 mm) vault only
- Depth:** 23" (584 mm) overall

### XL Cassette (2,250 note) version

- Weight:** 341 lbs. (154 kg)
- Height:** 30.75" (781 mm)
- Width:** 22" (559 mm)
- Depth:** 24.5" (622 mm) vault only
- Depth:** 28.5" (724 mm) overall

## SOFTWARE FEATURES

- Integrated console to control all tube vend functions
- Personal Identification Number (PIN) and/or iButton allows managed access to functions, reports, and instant access
- Tubes can be vended by authorized personnel
- Tube vending limits can be placed on any cashier or manager
- Up to five adjustable time delays between each tube vend occurrence
- "Buy Change" allows for the exchange of a note for tubes of change
- All transactions, deposits, drops and vault access can be audited to an individual user through the use of PINs

## WARRANTY

- 1 year parts and 90 days labor (inside the US)
- 1 year parts only (outside the US)
