NARROW SIDE VAULT

The Tidel Narrow Side Vault, when deployed with the Series 4, is an ideal solution for retail organizations that require a proven cash management system accompanied by a dedicated vault for additional storage. The Narrow Side Vault can be used for the store's change fund, coin dispensing cartridges, or other items such as lottery tickets.

The Narrow Side Vault offers two shelves that can be configured to a store's individual needs. The Narrow Side Vault door can only be opened by preauthorized store personnel via individual user PIN. An audible alarm sounds if a door is left open longer than a programmable time period. This eliminates the inherent risk of running the store with an open vault door.

The Series 4/Narrow Side Vault also provides a manual vault drop below the acceptor door, offering additional storage. This manual vault drop is also accessible via user PIN.

SPECIFICATIONS:

- Weight:** 229 lbs. (104 kg) Narrow Side Vault + Series 4
Height: 27.75" (705 mm)
Width: 7.25" (185 mm) Narrow Side Vault only
